

Fall Of Humans

Preston Precourt

January 30, 2019

I believe the fall of humans was bad.

Reason

Buildings will fall

The iss will fall

There will be very little
evidence of human life
in very few years

Evidence

Less evidence of human
life.

Less evidence of human
life

If new life is created,
then the fall of humans
won't benefit it by help-
ing the new life not
make the same mistake
as humans

Reason for the Reason

No humans to maintain
the buildings.

No constant recalibra-
tion

Nature will take over
